

Guarantee Certificate Nr: _____

Alesa Vaic Vacuum Technology

Dear Customer,

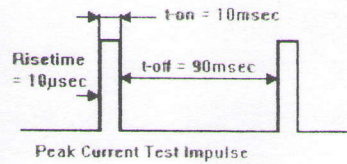

you have bought a hand-build quality item of *Alesa Vaic Vacuum Technology*.

We use the double amount of getters to achieve the ultra high vacuum. When used under normal conditions, our tubes will last for 10.000 - 40000 hours (See datasheet)

Important: Super Long Life Tubes hold their "as new" sound for almost the entire lifetime!

Test Procedure:

- 1) Functional Test after Activation
- 2) Socket Mounting and 100 hours burn-in
- 3) Impulse Current Test
- 4) Final Testing and Matching

Most important Test Data of this tube

Tube Type / Tube Nr : *AV302B SL / 9665* (inside glass)
 Matching Category :
 Test Date : *17.11.98*
 Filament Current *-* : *2.0-2.2* Ampere *= U_f = 5,0V*
 Impulse Current : *1.4* Ampere
 Anode Current *=* : *6.5* mA at $U_g = -60V, U_a = 300V$
 Grid Current : *0.1* mA at $U_g = -60V, U_a = 300V$
 Vacuum <10E-6 Torr : (testers signature)

I personally guarantee this valve for good function for a period of:

*12 months after purchase, or 2000 hours of continuous use for Standard Tubes
 and
 24 months after purchase, or 4000 hours of continuous use for Super Long Life Tubes*
